SAN JOSE. SAN JOSE.

BERFORD & CO'S LINE
OF EXPRESS MAIL STAGES,
HALL & CRANDAL, PROPRIETORS,

Are now running every morning to San Jose, leaving Berford & Co's office in the plaza, at 8 o'clock, A. M., and the City Hotel in San Jose at 7 o'clock, A. M.

The reduced rate of fare puts it in the power of every one to visit the beautiful and healthful valley of Santa Clara. There is no more charming drive in California than that from San Francisco to San Jose, and as one is whirled rapidly through the oak openings and across the level plains under the skillful driving of Professors Dillon or Crandal, who drive their own coaches, he finds that pleasure is united with business, and wonders he has never made the trip before.

The great advantage this line possesses over all others, is that the Stages were bought expressly for the road, and with a particular attention to *safety*, while the drivers, who have served a long apprenticeship from New England to Mexico, make the *quickest* time and *never meet with accidents*, which are so likely to occur with the old fashioned stage coaches. We invite our friends to give the line a trial.

NOTICE TO PASSENGERS.—Under the head of vessels advertised for REALEJO and PANAMA, the ship DUMBARTON, C. A. Smith, J. H. Craignutes & Co., her owners, Cunningham's wharf, they being well aware of gross frauds practised on the public by irresponsible persons who have bought and fitted up at a trifling cost old ships, and having received money by large bills of fare have pocketed the proceeds and left the passengers to find their passage home as best they could, without a dollar.

I would refer passengers and the public generally to the following advertisement of the ship CABOT, under the same firm as the ship DUMBARTON, of August, the 29th, 1850, of which the following is a copy:

CABIN PASSAGE TO PANAMA ONLY $65—First ship for Panama. To sail positively on THURSDAY, 29th. The A 1 clipper built, copepered and copper fastened passenger packet ship CABOT, 600 tons, Wilson, master, will be dispatched as above, direct for Panama, without touching on the coast. Her reputation as a fast sailer is well known. She was one of the fastest ships in the East India trade, and made her passage from New York to this port, 120 days. With the prevailing winds she will make this passage in 25 days. Her accommodations are splendid. Her cabin, aft, is mahogany finished and carpeted, with commodious state rooms. All the berths in the intermediate cabin will be furnished with mattresses and bedding. Her provisions are guaranteed to be superior to any vessel which has left this port. For a list of her provisions, passengers are referred to her mammoth bills. Her officers will be found experienced and gentlemanly, and one of her owners will accompany her They intend to make her equal to any, and superior to most of the steamers, and they guaranty that every thing shall be furnished as stated. For further particulars or passage inquire of C. A. SMITH, at Dalton House, Jackson street, or J. H. CRAIGMILES, or Buckelew's store ship.

N. B. The Cabot may be seen at Buckelew's pier. aug 26

And likewise to the following memoranda of the steamship Antelope, on her arrival at this port, 25th Oct. 1850:

"The ship CABOT had arrived at Acapulco, in thirty-three days, and had been condemned; the passengers to find their way as best they could."

And I would ask C. A. Smith, J. H. Craignutes & Co., and the public, who has practised what they call frauds, (and rightly too.)

UNION HOTEL.—Under the management of ISAAC M. HALL.—This establishment, situated on Portsmouth Square, San Francisco, State of California, will be opened for the reception of guests on THURSDAY, the 7th of November, inst., under the management of Isaac M. Hall, late of the Eagle Hotel, Rochester, New York. The building has been erected within the last three months; built of brick, entirely fire-proof, five stories high, fronting on Portsmouth Square 30 feet, and extending back 160 feet on Merchant street. There are 100 rooms, all finished in the most substantial manner, bathed and plastered, and hard finished walls. Each room is furnished with a stove and other bedroom furniture complete; bells are fitted up, communicating with the office from each room. The dining room will accommodate 150 persons, and the public may safely confide in the well known talent of Mr. Hall to make this department one of the most inviting of the house; all the delicacies of the season will be found on the table, and the wines the best the market affords. The proprietors confidently entertain the hope that this enterprise, involving at least $150,000, will meet its due appreciation by the public, and that the effort on our part to present a hotel where every comfort afforded in hotels in the Atlantic States may be found, will meet the reward of public patronage.

MATTERS ON THE PACIFIC SIDE.

Since our last regular issue for the steamer of the 1st inst., nothing of particular interest has occurred to mark the progress of California. The cholera, the scourge that has visited almost every nation of the earth, has made rapid strides in some localities, and laid in the dust many a noble spirit endeared to home and friends by the strongest ties. In our own city, since its first appearance, some three weeks since, the number of deaths have been about one hundred and thirty-five; while at Sacramento the bill of mortality has been much greater, reaching several hundred, and perhaps one thousand. We are glad to have it to say, that the scourge is abating, and that the deaths in either city does not now average over eight or ten per day, This intelligence will be received with pleasure by thousands of friends in the Atlantic States.

This immense bill of mortality has prostrated, or in a great measure, injured the business of the large cities, and consequently has effected every locality. Trade generally has been dull. The markets are well supplied, at prices very moderate.

During the approaching winter, a much larger number of miners will remain in the mountains, than ever before, and consequently more gold will be taken out than during any previous winter season. Heretofore the miners have generally sought the populous cities and towns for comfortable quarters, but they have now their supplies with them, and will have the advantage of being on the ground early in the spring, besides, in most instances, paying their expenses during the winter.

Much attention is now being paid to quartz mining. The Mariposa mines are yielding a good return for the labor performed, notwithstanding the machinery in operation is not of as powerful a kind as is desirable for the proper crushing of the rock. Within a short time past, however, another quartz vein of exceeding richness has been discovered between the South Fork of the Feather and the Yuba rivers. An assay has been made of pieces of quartz in which no gold was visible to the naked eye, and the yield was equal to thirty-seven and a half cents for each pound of the rock. Heretofore the mines have only been *scratched over*; scientific mining has just commenced. When fully under way, and the requisite amount of capital actively employed, the results will be even more wonderful and astonishing than has been the golden stream of riches which we have already sent forward to the Atlantic States and the Old World.

An extra session of the State Legislature is still under advisement, and not altogether improbable. The necessities of the State demand it, and we are in hopes that it will be called by the Executive.

The news by the last mail from the States, that Benicia had been created by Congress a port of entry for California, has called forth much discussion, and no little astonishment. We have only to say, that we yet hope that Congress will so far yield to the wishes and opinions of the people of California, as honestly expressed through their representatives, as to make the collection district bill in accordance therewith.

An account of the Indian difficulties, farther up the country, wil be found in this edition of our paper.—Although at present somewhat annoying, and having the effect to retard mining and business in that particular locality, we do not regard the matter as particularly alarming or serious.—Several skirmishes have taken place, with but the loss of two or three lives on either side. Against any well organized force, the Indians could not hold out a day.

CAUGHT AGAIN.—Blucher Haskel, who was lately lynched and imprisoned for stealing $5,000 at Nevada City, was yesterday brought before Justice Swift, charged with grand larceny. He entered the house of a German on the corner of 9th and M streets, and rifled a trunk of a gold watch and chain, a bead purse, and some money. On coming out, he was accosted by the lady of the house, who requested him to stop; but he ran, and was finally brought up by a gentleman who presented a pistol at him. He was bound over to the District Court in the sum of $800, and failing to give bail, was sent aboard the prison ship, where we hope the keepers will take especial good care of him. [Transcript.

☞ Colonel Bissell said in Congress, not long since, that for one, he did not think much of that class of politicians who were trying to ride two horses at once, besides leading a free soil colt.

DEMOCRATIC MEETING.

At a meeting of the Democratic Party of Sacramento, holden at the Orleans Hotel, on Tuesday evening, Nov. 12, 1850—the meeting was organized by the appointment of the following officers: Hon. John S. Fowler, President; Col. W. A. Baker, Vice President; E. J. Barroll and W. S. Long, Secretaries.

On motion of Judge C. C. Sackett, a committee of five was appointed to draft resolutions expressive of the sense of the meeting. The following persons were appointed said committee; C. C. Sackett, C. A. Johnson, A. M. Winn, W. C. Kibbe, and D. B. Milne, Esqs.

The committee having retired, the Hon. T. J. Henley was loudly called for, and addressed the meeting with some very pertinent remarks relative to the object for which the meeting was convened.

The committee then reported, through their chairman, Judge Sackett, the following preamble and resolutions:

Whereas, in the opinion of this meeting, the proper time has arrived for the organization of the Democratic Party in this District, therefore,

Resolved, That it is expedient to call a County Convention, to meet at Sacramento city on Saturday, the 30th Inst., at the Orleans House, at 2 o'clock, P. M.

Resolved, That the said Convention shall be composed of delegates elected in primary meetings, in the various precincts of this county.

Resolved, That we recommend to said convention the nomination of a suitable candidate to represent this county in the next Legislature, to fill the vacancy occasioned by the death of the late L. F. Dunlap, and the appointment of a Democratic Central Committee for Sacramento county.

Resolved, That our Democratic friends in Sacramento be requested to nominate delegates to the county convention.

Which were unanimously adopted.

Col. Zabriskie was then called for and addressed the meeting very eloquently, in behalf of the organization of the Democratic party.

D. B. Milne, and D. D. Bullock, Esqs., also made some remarks, after which, on motion, the meeting adjourned.

THE COAL TRADE.—The coal trade is interrupted by the strike of the laborers which we noticed on Tuesday. The men, it is said, ask a much greater advance than was at first supposed; though at some of the collieries where the advance of $1 a week was tendered before the strike, the men were at work yesterday. Advices from Schuylkill county represent the difficulty as likely to harass the trade for some time.

Coasting vessels are getting more plenty, and prices seem to settle firm at the advance, viz: $4,25 a 4,50 for a cargo of white and red ash coal respectively.

The coal lands formerly belonging to Hare Powell, Esq., in the neighborhood of Beaver Meadow, embracing 12,000 acres, the sale of which we noticed a few months ago, have recently been re-sold at a very large advance to some European capitalists. It is generally expected that this sale will lead to the early completion of the now much spoken of railroad, to connect our anthracite coal field with the harbor of New York. [Philadelphia Ledger.

A GLANCE AT OLD TIMES, OR BOSTON IN 1686.—In a book published in England, in 1705, by John Dunton, giving an account of his residence for a time in Boston (in 1686) he says: "It is the custom here (Boston) for all that can bear arms, to go out on a training day, and it was the first time I ever was in arms. Being come into the field, the captain called us all into close order, that we might go to prayer, and then prayed himself. And when our exercises were done, the captain likewise concluded with prayer. I have read that Gustavus Adolphus, the warlike king of Sweden would, before the beginning of a battle, kneel down devoutly, at the head of his army, and pray to God, the giver of victory, to give them success against their enemies, which commonly was the event. But solemn prayer in the field, upon a day of training, I never knew but in New England, where it seems a common custom. About three of the clock, both our exercise and prayers being over, we had a very noble dinner, to which all the clergy were invited."

OUR STEAMER PAPER.—A few copies of the steamer edition of our paper can be had at the counter, where a mail bag will be kept open until one o'clock.

DEMOCRATIC ORGANIZATION.

On the first page of to-day's paper will be found the proceedings of a Democratic meeting at Sacramento city, at which Maj. John Fowler presided, called for the purpose of taking measures to properly organize the Democratic forces, not only for the special election soon to be held, but for future contests. By the resolutions, which were unanimously adopted, it will be seen that it was determined to call a County Convention, to assemble at Sacramento city on the 30th inst., for the purpose of making a nomination to fill a vacancy in the Legislature, and for the appointment of a Democratic Central Committee.

This movement for a political organization upon the old Republican platform, although coming after the principal contest for the year has passed, is nevertheless sound, judicious, and commendable, and will have an important bearing in the future. The cry of "no party in California," has had its day, and the necessity for distinctive political organizations, if men believe in and still advocate long-cherished principles, is becoming every day more apparent. We have no taste for, and will take suitable and proper occasion to denounce that miserable milk-and-water course, through which certain men hope to steal their way into positions of honor and profit. We can respect an out and out Whig, and would more cheerfully give him "aid and comfort," than a political aspirant who has no distinctive principles, who is neither fish, flesh nor fowl, who cries "good Lord and good devil," just as uncertainty operates upon the scales of public opinion. Such individuals are neither worthy of a political heaven, nor the transition state of the opposite extreme.

Such is our opinion of the *namby-pamby* gentlemen who rely upon every and all parties for support, and who are generally "all things to all men," and nothing to nobody in particular. We like men who can be found when they are wanted, who have principles that they dare advocate, and are willing to stand or fall with them. Such Democrats, when regularly nominated, will always receive our support and countenance. Parties must assume and maintain their positions in California. Boldness in their advocay, and unflinching adherence to them when promulgated, alone can enable us to keep the old Democratic ship of State "right side up" in this golden land. Such a course *will* do it most successfully.

We are exceedingly gratified that our Democratic friends at Sacramento are moving so promptly and decidedly in the matter of party organization. They cannot be too efficient or determined, and the end will be satisfactory to themselves, and advantageous to Democratic principles.

SAILING OF THE TENNESSEE.—The mail steamer leaves port this afternoon, bearing from our midst about three hundred California merchants, miners and citizens, and a million and a half of treasure besides what is taken by individuals. Among the passengers we observe the name of —— Smith, Esq., of the well known firm of Kelsey, Smith & Risley, Clay street. Our limits will not permit us to publish a full list of the passengers, but we wish them, one and all, a pleasant voyage and a happy reunion with their families and friends.

CHOLERA AT SACRAMENTO.—We are rejoiced to perceive that the scourge is abating in our sister city. On Tuesday there were but seven deaths from cholera.

THE MAIL.—The mail for the steamer of to-day closes at the Post Office at one o'clock, precisely.

QUARTZ MINING.

In the past, gold mining in California has been confined to the *placeres*, which have yielded a fortune for thousands, with comparatively little labor. The ground, heretofore, has only been *scratched over*, but the attention of miners and capitalists is now being turned to the rich beds of quartz rock, which, so far as worked, have produced the most astonishing results. The popular locality for mining, has been the Mariposa Mines, which have yielded, and are still yielding, a considerable return for the labor and investment.

To work these mines, a large amount of capital is required, which can only be secured by forming companies, which renders the labor more efficient, and far more successful. Capitalists are seeking this means of investment, as safe and profitable, affording an adequate and satisfactory return, without the usual risk and complicated hazard of landed or other securities. Some little time since, a vein of quartz of immense extent, and rich in the glittering ore, was discovered upon the Northern Yuba River, by Mr. George Pierson, and two other gentlemen, which is now attracting wide-spread attention from monied men. The locality is one of the most desirable of all the quartz mines, being in the immediate vicinity of an abundant supply of water, and possessed of every facility for its economical and successful working. A good wagon road leads to within a short distance of the settlements, and the locality has every necessary convenience.

The most convincing proof of the richness of this newly discovered vein, is found in the assay made by Moffat & Co., of this city, whose general accuracy in such matters is a sufficient endorsement. From a piece of the rock in which no gold was visible to the naked eye, the yield was *thirty-seven and a half cents* for each pound of the ore. This result was equally satisfactory and astonishing. A yield of *ten cents* per pound would pay a handsome income, and when we find it as large as that named above, the profits must be immense.

A company has just been formed in this city for the purpose of entering largely into the crushing of the quartz, and the working of the mine. The certificates of stock have just been issued, and shares are rapidly being disposed of. The necessary machinery has been offered upon the most favorable terms, and in a few days Mr. Pierson will proceed to the mine, accompanied by a duly authorized deputation from the shareholders, who will complete all the necessary arrangements. The Company has been organized by the appointment of Samuel Brannan, Esq., President, and Mr. George Pierson, Secretary. Everything connected with the company is in admirable train for a successful prosecution of the labor. We know of nothing in the way of mining which offers greater inducement for investment of capital. The shares have been put at $300, and will probably soon be worth a premium in the market. By an advertisement in another column, we perceive that shares may be had of Messrs. Argenti & Co., Page, Bacon & Co., Marriott & Co., and of Mr. S. Brannan.

The quartz mining operations of California are yet in their infancy, but they are destined to be a greater source of profit than any other legitimate business followed in this modern wonder of the world.

MERCHANT STREET.—The question of the passage of the ordinance authorising the opening of the proposed street leading from Montgomery street to Portsmouth square, will probably come up in the Common Council this evening. For reasons which he deemed of sufficient force, the Mayor thought proper to return the bill at the last meeting of the Council, with his objections. This evening the question on its passage, notwithstanding the Mayor's veto, will be decided, and we hope in the affirmative. The property holders in the immediate vicinity have made a liberal proposition to the city, and they now ask that the corporation shall appropriate $25,000 in aid of the project. We are opposed to a lavish expenditure of the public funds, and if the Council err at all, prefer that it he on the side of economy.

The proposed street, while it will be one of private benefit, will also be of public utility, and a portion of the expense should be borne by the city. That the Mayor was honest in his opinion we have no doubt, and the city council may as honestly differ with him, and yet pass the appropriation ordinance over his head. It is a commendable trait in the character of a public officer, to look well to the expenditure of money, but a spirit of liberality for public improvements is equally desirable.

THE CHOLERA.—But seven or eight deaths occurred from cholera in the city yesterday. We are in hopes that the sanitary measures adopted will soon cause its entire disappearance. Cleanliness and health go hand in hand.

"HOMEWARD BOUND."

A crowd of men are now moving from these "golden shores" for the sweet land they call "home." The "two years" of adventures are waning to a close, and Jason and his brave followers are wending their way from the land of the "fleece," guarded by bulls breathing fire and the sleepless dragon. Hercules, and Iolchos, and Theseus, and Esculapius, and others equally renowned for skill or bravery, are now gathering up their forces to return.

It is true that hardships were encountered in reaching here by land or by sea. Not alone did the Symplegides threaten, and the hoarse blasts of the sea so "hospitable to strangers" appearrea dy to devour those who came, by even the charms and arts of the enchantress Medea, have not sufficed to give them that success and triumph over the spells which held fast the gold which they so ardently coveted. They now stand ready to direct their argosies with favoring winds and tides and beating hearts, towards the shores of the fair-armed daughters of their home.

Who knows what reception awaits one in that spot he would call his *home?* If no wealth of gold be borne by him as a treasure, will he carry thither and find there pure affections, and a wealth of love richer than gold? "As Crœsus rich," a man may have occasion to be wretched. Unless he bear in his own heart a full store of best emotions and holiest principles of good living, enriched by the varied experience of his absence, he will go home a poor and a bad man indeed.

As we stated the other day, we believe that the welfare of our nation in all points of view will have been enhanced by the opening of California, and that the progress in our career as a people, will have been indefinitely extended by this step onward in the path of empire.

BAD LATIN.

It is too bad that no one in California who attempts quotations from any ancient or modern tongue, hardly ever succeeds in getting them correctly in print. We confess that we are a little given to this vanity sometimes, ourself, in order to set off a sentence. But not only will Pegasus not fly right, he will not even walk straight.

Figures aside, all attempts to use the learned languages with us must continue to prove a failure, unless we take more pains with our manuscript or proof-reading. The press generally will have to own up on this subject. We do it cheerfully ourself, and we presume others will do the same.

The *Courier* has boasted of its French, and yet it makes as many *faux pas* as any of us, as our friend Dr. *Le* Batard, can testify, without feeling angry that his name is *Le* and not *La* Batard, as our neighbors called him. And even our erudite friend of the *Illustrated News* always has a host of mistakes in the quotations in which he indulges, from the various foreign languages, as witness his extract from Sophocles in his number of to-day:

"A little learning *is* a dangerous thing," and any little care in what we say and write almost always is the cause of our speaking or writing incorrectly.

GOLD DUST.—Of the shipment of gold dust by the steamer to-day, Adams & Co. forward $275,000, and J. W. Gregory $48,000. The latter is steadily increasing in his operations, and will soon take equal rank with any house engaged in the business, which his enterprise and promptitude well entitles him to.

LATEST FROM THE SANDWICH ISLANDS.—By the Angloma, which arrived last evening from Honolulu, we are put in possession of papers to the 19th ult. We note nothing, however, of special interest. The general aspect of affairs in the Islands wears quite a civilized and business like appearance, which we are very glad to see.

DEATH OF A GRAND JUROR.—We were pained to learn last evening, of the decease, by cholera, of Mr. J. A. Stevens of Cincinnati, one of the present Grand Jury. He died at his lodgings in Pacific street, above Kearny, and his funeral was attended yesterday afternoon by the remaining jurors.

OYSTERS.—By the reports brought to this city last evening, by the bark Gold Hunter, from Columbia River, we are apprised of the recent discovery of large beds of excellent oysters, in Shoal Water Bay, to the southward of the mouth of the Columbia. Two vessels are there loading with the precious bivalves for this market, and we shall soon have an opportunity of judging of the importance of this discovery. There is certainly a "good time coming."

ATTEMPT AT ROBBERY.—Two scoundrels attempted to force an entrance into the rear portion of Everett's hat store, on Commercial street, on Tuesday night. Before effecting their purpose, they were frightened away.

☞ We had the pleasure of receiving a call yesterday from D. W. Murphy, one of the talented members of Assembly elect from Calaveras county, who exhibited to us some exceedingly rich specimens of quartz found near Carson's diggings. They were decidedly the most valuable, for the quantity, of anything of the kind which has yet come under our eye. They were procured from a rock which was some twenty feet above the surface of the ground. The blasting was commenced at the top, and as it proceeded downward, the vein opened still richer, and had continued to do so as far as the laborers had progressed when Mr. Murphy left. If the pieces we saw are fair specimens of the remaining portions, but a few days would be required to produce a fortune, even as "piles" are counted in California. We understand this rich vein was discovered by Mr. William Hance, whose indefatigable industry during a two years residence in this State, mostly in the mineral regions, deserves the reward which we are confident he is about to realize.

☞ The election to fill the vacancies that have recently occurred in the township officers having been ordered by the proper authorities, it is of some importance, so far as the interests of the people are concerned, that a good selection of candidates be made, who shall be presented for the suffrages of the electors. Though, for instance, the office of Constable be not a very prominent, yet it is an exceedingly respectabe one, and requires a man of intelligence, firmness and character to fill it properly. We do not know who are named for the Constableship, but we do know that a better or more efficient gentleman could not be proposed than Mr. DAVID W. THOMPSON, now filling acceptably the post of deputy to the City Marshal. He is well known to our citizens, is highly esteemed by them, and for a long experience in the duties of deputy sheriff in the State from which he emigrate to this, is peculiarly fitted to fill the office creditably to himself, and satisfactorily to those whose business must necessarily pass through his hands. We commend the claims of Mr. Thompson to the favorable consideration of the electors, believing their choice could not fall upon a more worthy or competent man.

DELAY NOT.—Now is the time—before the Steamer sails to-day—to obtain such suitable tokens to forward to loved ones far away, as shall brighten the chain that binds us together, and make glad the hearts of those who shall be gathered around the Christmas hearth, with the pleasing consciousness of being *not forgotten*, but fondly remembered, though seas and a continent separate us from the objects of affection.

If you send what is most valued, a portrait of yourself, go to *Bradley's*, Montgomery street, next to the corner of Washington, who will give you a perfect likeness in a sitting of ten to twenty-five seconds. He is, in our judgment, one of the best operators in the Daguerrean Art in America, as those who examine his specimens cannot fail to acknowledge. He will turn out a picture even within half an hour before the Steamer leaves; but it will be better to call in the forenoon.

At any rate, send home something for a Holiday Token, be it ever so trifling—say from an embroidered shawl to a California gold ring.

THE INVOICE OF GIRLS.—By our marine report of yesterday morning, it appears that the cargo of French girls spoken of sometime ago, are not only on their way here, but are probably very near port. The ship was boarded in Rio by the captain of a vessel which arrived here on Wednesday, who endorses the *demoiselles* among the most beautiful of the French metropolis of concentrated sin and frivolity. We understand that the building designed for their reception, which has been for some time in course of erection, is now nearly ready. There will be *one* house full of frailty!

CORONER'S INQUEST.—Coroner Gallagher held an inquest yesterday morning on the body of a man found in Happy Valley. Verdict, "Death from dysentery and rum." The verdict should have been probably, "Death from *rum* and dysentery." It is not to be disguised, that rum is a fruitful source of disease in our midst, and is almost as destructive in its results as the cholera, although less speedy in their accomplishment. Tee-totalers in the cities of California, are greater objects of curiosity than wives and mothers. *Both* are "scarce."

PRICE CURRENT.—Mr. L. W. Sloat, of the Chamber of Commerce, has published for the steamer of to-day, an "Exchange Price Current and Shipping List," which will be found extremely valuable to dealers to send to their correspondents in the States.

THANKS.—Hawley & Co., and Palmer & Co. furnish us daily with up river papers.

CITY IMPROVEMENTS.

Editor of Pacific News:

Besides the improvements which are daily taking place in the character of our buildings, and more especially by the substitution of bricks for wood, in the materials of construction, I have, after an absence of six months, been very much struck by the extension of our streets over the water lots of the city, and the great increase of value given to the property by the construction of such important works as the Central Wharf. In a short time, when either side of that structure shall have been covered with stores, the occupants of Commercial street (the opening of which is so great an improvement,) will pay more rent to the property holders and more taxes to the city, than any other business street in the city, if we, perhaps, except Montgomery.

By the extension of Jackson street by planking the same over, and of Washington, Clay and Sacramento, similar effects will be produced, and soon an amount of taxation will accrue to the city that would go far to carry the city scrip from 40 cents up towards par. Already are the outposts for such constructions in process of erection, the hundred vara lot between Clay and Washington streets, on the front of the city being already piled round, and ships sunk there with the view to the erection of a permanent and solid wharf; and it needs not much foresight to predict that before many months elapse, rival streets to Commercial will be found extending down Clay, Washington and Jackson streets, all of which will be free to the public, as wharves, at their terminus, and well produce a revenue from taxation of tens of thousands of dollars to the city; besides curbing the monopolists of Long and other wharves in the charges which they now make on the public purse, and which are limited only by their discretion.

Should the City cease in its opposition to individual enterprise, this will doubtless be soon the case; and a stop will be put to the enormous expenditure now incurred by the city in prosecuting and defending lawsuits, to recover property, "*to the fee of not one foot of which*" the official city organ of this afternoon proclaims it as not entitled.

But even without this latter consideration, there is one very potent reason why this should be done, and it is: Be the title in the city, these improvements, (when such is decided by United States Courts,) will accrue to it, and instead of being without revenue therefrom in the meantime, it will have a large income and eventually an improved property of immense value. Yours, A TAX PAYER.

THE NEW YORK HAT EMPORIUM. A year ago, slouched hats, wool hats, and "shocking bad hats," were decidedly the rage. Now, however, we are becoming as dashy and fashionable as the old Atlantic cities. In order to keep pace with the increased demand for tip top articles in the gentleman's furnishing line, Mr. T. P. Everett, in Commercial street, has just opened at his Emporium, every variety and style of goods demanded by the wants of the market. In addition to a general assortment of gentlemen's furnishing goods, he has received within the past three days, an invoice of the latest styles of hats, from the celebrated establishment of W. H. Beebe & Co., in New York, which will even add a polish and finish to a handsome man, to say nothing of the improvement to an ugly one. We have never seen a more beautiful and tasty tile in any city.

At this popular Hat Emporium, will always be found an accomplished practical hatter, Mr. O. H. Boyd, who gives a finishing touch to decayed beavers, and makes them look as good as new. His experience in New York enables him to finish every thing in the tip of the mode. With his aid, and Everett's good taste, we do not wonder that almost every *hombre* in town sports a stylish *some brero*.

THE ADELPHI.—The company, which have been playing at the Adelphi for a few nights past, have left, and the establishment is now under the management of Mrs. Collyer. The Morduit Family appear again this evening, in their popular performances. To-morrow evening the receipts will be appropriated for the benefit of the "Greek Slave."

AUCTION SALES THIS DAY.—*Kettelle, Mahoney & Co.*, sell at the usual hour this morning, a large assortment of goods.

Jas. B. Huie & Co. at 10 o'clock will dispose of a very desirable stock at auction.

TO CORRESPONDENTS.—We have received a very able and interesting communication in reference to Gold Coinage, the value of dust, &c., which the lateness of the hour, and the pre-occupation of our columns, compels us to defer until to-morrow. It discusses a subject deeply interesting to California, and which cannot fail to command the earnest thought of our citizens.

CAUTION TO MERCHANTS.—Between 12 and 1 o'clock last last night, a daring attempt was made to enter the store of Mr. Wm. G. Badger, commission merchant, on Sansome street, by some half dozen ruffians. Mr. Badger, who slept in the store, was awakened by the noise, and upon giving the alarm, the villains bolted, after having first broken open a case of goods standing on the outside, and taking off most of its contents. To murder and plunder, was no doubt their attention. [Picayune.

NOONEY VS. MARVIN.—Some time ago, says the Sacramento Transcript, the returns we had received, gave Marvin 3335 votes, and Noony 2615 The returns we have received thus far, give the following result:

Marvin, - - - -	3364
Nooney, - - - -	2910
Marvin's plurality,	454

CHOLERA.—We learn from Algeria that the cholera had ceased at Bona, and had broken out at Biscara, where it attacked dogs, fowls and other animals, with the same violence as human beings. Query—What has caused the mortality among rats in our city? There is an unusually large number of dead ones lying around our streets.—[Sac. Transcript.

ACCIDENT.—Mr. Wm. C. Cook met with a slight accident from a pistol on Monday evening. He was loading a revolver in Everett's Hat Emporium, in Commercial street, when one barrel exploded, the ball lacerating the fore finger of his right hand. Too much care cannot be exercised in handling edge tools.

SUNDAY EXCURSION.—The beautiful steamer Senator will make an excursion on Sunday next. It will no doubt be an extremely agreeable one. See advertisement in another column.

☞ Mr. Hardenburgh has been appointed President of the Common Council of Sacramento.

MARRIED.

In this city, on the 13th inst., by Rev. Albert Williams, Capt. John Curtis, of the ship Howard, to Miss Letitia Bammer, late of New Orleans, La.

Also on the same occasion, by the same, Mr. David Rattray, of this city, to Miss Eliza Crocker, late of New Orleans, La.

[With the above annunciations, we received a bountiful slice of wedding cake.]

Oct. 28th, in Yuba city, by the Rev. J. Wilson, the Rev. George M. Hanson to Mrs. Jane P. Russell, formerly from St. Louis.

DIED,

On Thursday, 14th Nov., Capt. W. D. CHARD, of the firm of Chard, Johnson & Co, of this city, aged 37 years, after an illness of a few days. His friends are requested to attend his funeral to-day, (Friday,) at 2 o'clock, P. M., from his residence in Dupont street.

At San Jose, at the house of Gov. Burnett, of cholera, on the 11th inst., Dominick Sabaros, a native of France, aged about 28. His brother in the mines is requested to go to San Jose.

YUBA QUARTZ MINING Company—Capital $300,000, in one thousand shares of $300 each. Deposit, one-third upon single shares, and one-sixth upon three and upwards.

Chairman, SAMUEL BRANNAN, Esq.; Secretary, Mr. GEORGE PIERSON.

References to Col. Chas. L. Wilson, Hon. J. Bidwell, Dr. Hibbard, Prest. of Los Angeles Mining Co.; Gen. Winchester, Pacific News.

This Company is formed for the purpose of working a Gold Quartz Vein recently discovered upon the Northern Yuba, whose richness and extent promise a "Golden Harvest" to the shareholders. The locality affords water and every facility for the advantageous and economical application of machinery, is approachable by a good wagon road and within an easy distance of the settlements.

The extent of the vein is represented as very considerable, and Messrs. MOFFAT'S assay of the ore, of which a copy is subjoined, is referred to as the most convincing proof the proprietors can submit of its value and importance.

Proposals have been made by an eminent Firm in this city to provide machinery upon terms highly satisfactory and advantageous to the company, which are now under consideration; and in a few days the discoverer of the vein, accompanied by a duly authorized deputation from the shareholders, will proceed to the spot, to complete the arrangements for the immediate prosecution of the undertaking.

Shares may be had of Messrs. Argenti & Co., Messrs. Page, Bacon & Co., Bankers, and at the offices of Messrs. Marriott & Co., Loan and Mining Agents, Montgomery street, and Mr. S. Brannan, whose receipts for the payment of the deposit, will entitle the holder to the share ticket when issued.

Samuel Brannan, Ch'mn.
George Pierson, Secretary.

SUPERIOR PACKET FOR REALEJO, PANAMA, and VALPARAISO—The fast sailing A 1 coppered and copper fastened ship DUMBARTON, 1000 tons burthen, Gibbs, master, will leave for the above ports on WEDNDSDAY, Nov. 20th.

Having dispatched within the last three weeks, with signal success, the incomparable packets OSCEOLA, CLARISSA ANDREWS, and ELLEN BROOKS, and having rendered complete satisfaction to passengers, in all cases, we now offer our favorite packet, the magnificent ship Dumbarton, costing about Thirty Thousand Dollars, confidently relying that such a fine and roomy vessel will not fail to command the liberal patronage which she deserves. We are well aware of the gross frauds practised by irresponsible persons, who have bought and fitted up at a trifling cost old whaling crafts in the harbor, which never intended to sail, and having deceived many by large bills of fare and low rates of passage, have pocketed the proceeds, and left them to find a passage home as best they could, without a dollar.

Passengers may rest assured that the Dumbarton will leave in 48 hours after her advertised time. Her accommodations in her Saloons and Second Cabin, are more splendid and better arranged for comfort than any vessel ever sent from this port, and will compare favorably with the finest New York and Liverpool packets. In addition to her present extra lot of live stock and vegetables, she will lay in a fresh supply again at Realejo. Besides, stewards and cooks of the first class, and a large number of waiters, a regular baker has been engaged, and the tables will be furnished with fresh bread every day. Every precaution has been taken to insure the health of all on board. A well replenished medicine chest, milk, wines, sago, arrowroot, tapioca, prepared barley, and other suitable hospital stores, together with a large quantity of chloride of lime and other cholera preventives have been provided, and an experienced physician, a regular graduate of the Royal College of Physicians and Surgeons, of London, has been employed, who will attend to the sick, free of charge. The Captain is confident that he will make the trip as quick, if not quicker, than any sailing craft on the Pacific. One of the owners goes with her to see to the convenience of her passengers, and will be responsible for every statement in this bill.

The fact that we were the first to fit up sailing vessels in good style, furnished with mattrasses and bedding, and the first to supply our ships with fresh provisions and vegetables, as well as the first to reduce the price of passage to the present moderate rates, is a sufficient guaranty for the Dumbarton.

She may be seen at Buckelew's Pier, where persons are invited to call and examine her for themselves. Gold dust and treasure shipped and insured.

PROCLAMATION!!!

The Governor of the State of California, to all to whom these presents may come: Greeting:

In compliance with the long established and appropriate custom of our fathers, as well as in accordance with his own feelings, the undersigned, Governor of the State of California, hereby recommends that Saturday, the thirtieth day of November, one thousand eight hundred and fifty, be set apart and observed by the people of California, as a day of solemn thanksgiving to the Supreme Ruler of the Universe, for the unnumbered blessings bestowed by Him upon our young State and people; and especially for our admission into the happy family of States.

Given under my hand, at the Pueblo de San Jose, the fourth day of November, in the year of our Lord, one thousand eight hundred and fifty, and of the Independence of the United States, the seventy-fifth.

PETER H. BURNETT.

BARON HUMBOLDT AND THE PEACE CONGRESS.

The following letter was written by Baron Von Humboldt to the Peace Congress, at Frankfort, but did not arrive in time to be read at the meeting, which took place some days before it was dated. Coming as it does from one of the greatest men now living, it speaks in unison with the feelings of millions of others. How unlike the peaceful career of its illustrious author to that of the mighty demon of war and blood, who was born in the same year with himself, and who ended his days *a la tete d'armee*, as he wildly imagined in the delirium of death, in his miserable exile on the rocks of St. Helena.

To the President and Members of the Peace Congress—I regret so much the more that my personal position and advanced age, which warns me to complete what work I have commenced, should hinder me from assisting at a meeting having so noble an aim in view, as it would have afforded me the gratification of coming in contact with so many men distinguished for talent and humanity. I have already verbally expressed this regret, a few weeks ago, when I had the pleasure to see Messrs. Henry Richard, and Elihu Burritt and Visschers, and to converse with them on the probable influence which your society may hope to exercise.

The general peace which our continent has now so long enjoyed, and the praiseworthy efforts of many governments to avert the oft-threatening dangers of a general European war, prove that the ideas which so prominently occupy your minds are in accordance with the sentiments called forth and diffused by the increased culture of humanity. It is a useful enterprise to inspire such sentiments in the commonwealth by public conferences, and at the same time to point out the way through which wise and sincere governments may, by fostering the progressive and legitimate development and perfectibility of free institutions, weaken the long accumulated elements of animosity.

How much mildness of manners and an improved order in the organization of states have confined within narrower limits the wild outbursts of physical violence, may be seen by comparing the first middle ages with modern times. The whole history of the past shows that, under the protection of a superior Power, a long nourished yearning after a noble aim, in the life of nations, will at length find its consummation Has not a disgraceful legislation, conniving at—yea, encouraging the infamous system of slavery and the traffic in human beings, at least on our continent, and in the independent States of former Spanish America, yielded to the united efforts of the better part of mankind?

We must not, then relinquish the hope that a path will be opened by which all hostile divisions and contracting jealousies will gradually disappear. The whole history of the world teaches, to use the expression of a statesman long departed, 'that the idea of humanity becomes, in the course of centuries, ever more visible, in a more enlarged acceptation, and proclaims its animating power.'

Inspired with these hopes and wishes, honored men, I beg to commend myself to your kind remembrance, &c.

CHOLERA IN THE MINES.—We have seen persons from various portions of the mines, dependent upon this city for supplies, from whom we learn that the cholera has spread to but a very limited extent. A few cases have occurred at Nevada City, Rough and Ready, and some other towns, but to no considerable extent. It seems now altogether probable that the cholera will soon entirely leave California. PRINCE DE JOINVILLE.—A few days ago we copied a postscript from a letter written by the Paris correspondent of the New York Commercial Advertiser, in which it was stated that the Prince de Joinville had addressed a letter to the committee of twenty-five, wherein he declared himself entirely against princely Republics, and in favor of an honest Republic, purely and simply democratic. This letter, it was stated, had greatly excited the ministry, and a copy of it had been forwarded by courier to Louis Napoleon, who was then on his tour through the provinces. In reference to this letter, the same correspondent, in his communication of the 29th Aug., says:

The letter referred to in the postscript to my last was really written by the Prince to one of his Paris friends, who showed it to others. It was an unreserved adhesion to the republican form. Three influential members of the Orleanist party immediately started for Brussels, the letter in hand, and prevailed on the Prince to withdraw it, and return to England. The affair has been hushed up, as well as possible, by the Orleanist party.

☞ RULES OF PRACTICE OF THE COUNTY COURT of SAN FRANCISCO—Sitting for the Trial of Appeals:

1. It shall be the duty of Justices of the Peace to endorse on the transcript the names of the Attorneys, if any, who appeared on the trial before him.

2. It shall be the duty of the Clerk to make up a docket of the causes entered for trial, in the order in which the appeal papers are filed; one copy for the court, and one for the use of the Bar.

3. Causes may be entered at the foot of the docket for trial, at any time during the first week of the term, by filing a stipulation to that effect.

4. A day docket of Jury causes will be made up after the first day of the term, from the regular docket, in their order, and of such as may be specially set down for trial by the Court, a list of which shall be posted by the Clerk on the Court-room door, and none others will be called for trial that day.

5. The party or attorney moving a jury cause for trial shall pay the jurors fees on the rendition of the verdict, and in default thereof will be held as standing in contempt, and liable to attachment.

6. After the first day of the term, if neither party answer on a cause being called in its order, it will go to the foot of the docket.

7. No default will be taken on the first day of the term, and no cause will be tried on that day, except both parties are ready

8. In cases where a jury is waived, it shall be the duty of the parties or their attorneys to file a stipulation to that effect with the Clerk of the Court on the first day of the term.

9. Witnesses may be examined *de bene esse* before the Commissioners appointed by this Court, on one day's notice to the opposite party, and in cases of emergency on such notice as the circumstances may allow

10. Special motions will be heard on each day, at the opening of the Court, at ten o'clock, A. M., on one day's notice, or on an order to show cause.

11. The Court will be kept open by adjournment after the docket is disposed of, for hearing motions and such other business as may be necessary, on Monday of each week, at 12 M., until the commencement of next term.

12. In all cases not herein provided for, the rules of practice of the District Court will be followed. o19 tf

LOOK AT THIS, EMIGRANTS AND OTHERS!

300 FAMILIES WANTED, WHO wish Homes. Having completed my survey in the southern part of the city of San Jose, in all 900 lots, 25 by 47 1 2 varas, and being desirous to have improvements go on rapidly, I propose to give 300 lots to settlers who will build a neat, suitable house on each lot, and fence the same.

I have also over 100 lots, 50 varas square, in the Old Survey of the city, which I will sell low, and give time on part. The lots I own in the Old and New surveys of the city are decidedly the best locations for buildings, being high and dry, and never subject to overflow; with the very best mountain water, obtained at the depth of 12 to 14 feet.

I think lumber shippers would do well to call and take a look at my lots. I will give them lots to build houses on, or will exchange lots for lumber of all kinds, or houses.

THE VALLEY.—We have a greater number of acres equal to the best Illinois land, than can be seen in any other north or east of us, in California; and the grain-growing portions of the world, so far as I am acquainted, cannot equal us in producing wheat, both in quality and quantity: 60 bushels have been raised to the acre, and there can be seen now in the fields and gardens of our farmers, as fine crops as a majority of the States can produce at and vegetables of all kinds in abundance growing, and that too, without rain or watering.

CLIMATE AND HEALTH—Listen, now:—The average summer heat is 75 to 80 degs., with cool nights; no musquitoes, day or night; no fever and ague, and no disease peculiar to the valley or town, winter or summer.—We have some of the first settlers living with us yet, over 100 years of age, and one in particular, over 110, sound in body and mind. We have had but one death out of the immigration of 1846, an old gentleman, who was broken down with disease before he came to our city.

THE MORALS of our city and vicinity will, I make no doubt, compare with those of the best of our neighboring cities and towns. We are a law abiding and a law supporting people, and have our churches and schools as well as others.

Persons wishing lots will apply soon to the subscriber in the south end of the city. JAMES F. REED.

KLAMATH GOLD MINES, River and Town.—One of the most extensive fields for speculation at present in California.

The attention of the public is now called to this very important part of California. The town of Klamath is situated on the bank and at the vicinity of the mouth of a river, upon the numerous tributaries of which the most productive and extensive gold mines have been discovered of any now in existence in California. The Harbor (at the upper end of which this beautiful town site is situated) is both commodious and secure, and possesses the very superior advantage over all the other ports upon the coast between the Columbia river and San Francisco of a perfectly safe entrance. The river is a magnificent stream and navigable by steamers, according to the opinion of steamboat captains and others in every way competent to judge of the matter, at least 70 miles up; at, and even below which point, these very rich gold mines commence. Merchants and capitalists who are desirous of realizing a handsome profit upon their goods and an enormous return for their capital cannot enter into a better speculation or make a more safe investment of their means in any part of California, from the fact that there are at present about 2000 miners at work upon this river and its tributaries; and there is every reason to believe, from the numerous satisfactory statements of the miners, relative to their success during the last year, that next year there will be many times the number. The immediate rush to these mines from all parts will be immense, and in fact almost unprecedented; and this town, which may be said to be adjacent, in consequence of the water communication into the very heart of them, must and will undoubtedly be insured a speedy and almost magic growth, and by this time next year will be a very respectable rival to (if not totally eclipsing,) Sacramento and Stockton. Miners who have, during the last summer expended to such a deplorable extent their useless toil and labor in the southern mines, and have actually lost money in the place of making it, by the unsuccessful and numerous damming operations, and the scarcity of gold there, are strongly recommended to turn their attention to these mines, as the average amount dug last year, putting it at an infinitely lower estimate than from the statements of the miners we would be warranted in putting it, one ounce per day to the man. This alone is sufficient to justify the opinion that there is ample room for more, and when it is taken into consideration that not over one tenth part of the gold region has as yet been explored, the certainty of room is rendered beyond doubt. The enormous tax upon the miners for packing of provisions will next year be effectually obviated by the aid of water communication, which extends into the very heart of the mines. Goods can be taken from the deck of steamers by the miners in the place of the pack-saddle of the mule, and provisions now furnished at an expense of $1 50 for the mere packing, can be afforded for ten cents, thus enabling the miner to lay by the fruits of their labor, instead of expending so great a quota for subsistence. To persons wishing to invest capital to an advantage in town lots, an almost unparalleled money making speculation is now open; as lots at the present time can be procured at a comparatively low figure, and the price that they will be disposed of next spring will be high. Arrangements have been made for a steamer to ply between the town and the mines, which will warrant to miners the supply of provisions forthwith.

A map of the town and river can be seen at Messrs. Shultz & Palmer's, foot of Jackson street; at Bullett & Patrick's, corner of Jackson and Sansome streets; and at Worthington, Beale & Bunting's.

Any required information respecting the Mines, River, Town and Harbor, by application to Mr. John Gray, at Messrs. Schultz & Palmer, or to Mr. T. Bunting, at the firm of Worthington, Beale & Bunting, on Montgomery street. o16

THE PEOPLE OF THE STATE of California, District of the County of Santa Clara: Jose De Arnaz vs. Genoveva Garcia Mangel, Emanuel Mangel and Lorenzo Geoffrey. Petition to foreclose mortgage, &c.

Whereas, JOSE DE ARNAZ filed in this Court on the 16th day of May, 1850, his petition, showing, among other things, that on the 20th day of December, 1849, Genoveva Garcia Mangel, the wife of Emanuel Mangel, was the owner in fee of a certain house and lot in San Jose, adjoining and in the rear of the house lately occupied by Messrs. Larrain, Benitez & Co., and fronting on Garcia street, did on that day mortgage the same, with the consent of Emanuel Mangel, her husband, to said Arnaz, to secure the sum of five hundred and sixty dollars, payable four months from date: That afterwards, on or about the 15th day of January, 1850, said Emanuel Mangel and Genoveva G. Mangel executed a mortgage on the same premises to one Geoffrey, of San Francisco, for about fourteen hundred dollars; which said mortgage was falsely dated the 19th of December, 1849, with intent to defeat the prior mortgage lien on said real estate, and to cheat and defraud said petitioner out of his debt. Said petitioner prays discovery and full answer to the above facts, that said mortgage to Geoffrey be set aside as fraudulent, and that said premises be sold to pay petitioners's mortgage, and for general relief.

And it being proved by affidavit to the satisfaction of this Court that Emanuel Mangel is a non-resident of this State, notice is hereby given to Emanuel Mangel to be and appear before the Honorable Court of the Third Judicial District, for the County of Santa Clara, on the fourth Monday of December, 1850, at the court house in San Jose, then and there to answer said petition, or, in default thereof, the allegation therein contained will be heard in your absence and decreed accordingly.

Stewart, against yourselves and James A. Forbes, Robert Walkenshaw, and John Parrott, filed in the Clerk's Office of said court at San Jose, on the 5th day of October, 1850, by the said plaintiffs, to recover from you the possession of a certain tract of land; being a portion of the Rancho de la Canada de los Capitancillas, alias San Vicente, and bounded and described as follows, viz: all the western portion of said rancho lying between the rancho de las Capitancillas, belonging to William Wiggins, and the arroyo de los Alamitos, with a tract lying east of and along said arroyo, of half a mile in width, and running to the Sierra, which land, and more especially the Mine, Hacienda, and appurtenances of New Almaden, thereon situate, the said plaintiffs claim as their property, and that you unlawfully retain possession thereof since the first day of February, 1845. Wherefore they pray to have you ejected from the same, and to recover from you seven hundred thousand dollars, as the rents and profits thereof since the said 1st day of February, 1845, and also three hundred thousand dollars damages for the trespasses and wrongs by you committed thereon. And you are notified that unless you appear and answer said complaint at the time and place mentioned, that the same will be heard upon default and a decree entered accordingly.

Given under my hand and private seal, there being no seal of office yet provided at this office, this 17th day of October, 1850.
